

Online workshop Transforming REDD+ in Indonesia

📅 27 October 2020

GCF RBP Payment to Indonesia

Marc Dumas-Johansen, Green Climate Fund (GCF)

REDD+ results-based payments in Indonesia for the period 2014–2016

Volume of ERs offered (x) total score achieved = GCF volume of ERs

Maximum score

Values		Results
Volume of ERs offered:	27 million tCO ₂ eq	GCF volume of ERs: 20,250,000 tCO ₂ eq
Total score achieved:	36	Additional 2.5% of payments for non-carbon benefits
Maximum score:	48	
Valuation of results:	USD 5/tCO ₂ eq	Proposed results-based payments:
Non-carbon benefits score:	2	USD 103,781,250

Project approved at the 26th Board meeting of the Green Climate Fund

- **AE:** UNDP
- **EE:** Ministry of Finance
- **Mitigation potential:** 20,25 million tCO₂eq (2014-2016)
- **ESS Category:** B
- **GCF Contribution (Results-based payments):** USD 103,781,250 million
- **Project Duration:** 4 years

Terms of reference for the pilot programme for REDD+ results-based payments

Use of proceeds

14. Countries receiving REDD-plus RBP through the AEs must **reinvest the proceeds** in activities in line with their current or next **Nationally Determined Contributions (NDCs)** as established under the UNFCCC Paris Agreement, their **REDD-plus strategies**, or **low-carbon development plans**. These activities must also be consistent with the objectives of the GCF. Countries must provide a description of the anticipated use of proceeds, including the main activities to be conducted, the agencies or relevant stakeholders involved, the timeframe for implementation, and the assessment process for GCF safeguards, consistent with GCF policies. Compliance with GCF policies will be required as well as simplified reporting on the proposed activities.

Use of proceeds for Indonesia:

Output 1: Strengthening REDD-plus coordination and implementation and overall REDD-plus architecture; and

Output 2: Support to decentralized sustainable forest governance:

- Further extend and enhance Social Forestry and Forest Management Units (FMU) operationalization, as two ambitious and innovative priority programmes which contribute strongly to the double objective of sustainable forest management and rehabilitation, as well as community empowerment and poverty alleviation
